Price	\$219.00

Biante Model Cars are extremely excited to announce the latest addition to its ever expanding range of collectable model cars and this one will really exaggerate the senses - the Ford FG Falcon V8 Supercar in 1:10th scale. Not content with modelling the FG to the highest of industry standards in 1:18th, Biante are looking to set the bar even higher with the introduction of this monster of a model.

Shown on the last page, sitting behind its 1:18th sibling, the 1:10th scale FG Falcon is a closed body example of Biante's latest FG tooling.

Sitting at just over 50 centimeters in length, this FG Falcon is delivered with full racing interior, full undercarriage detail and photo etched parts throughout. Tooled around the latest Dick Johnson Racing Ford FG Falcons, the first two examples to be produced will be the #17 Steven Johnson and #18 James Courtney 2010 V8 Supercar Championship Series cars.

With expected delivery in October 2010 and limited to 20 units of each car, with numbered Certificates of Authenticity, these will be highly sort after collector's

items. Coupled with a suggested retail price of \$2995 inc GST, they are very reasonably priced for a model of this magnitude. The image on the next page shows the prototype sitting inside the 1:10th scale display case that is shipped with the model and included in the price.

Please place your order by phone, fax, email or in person by Friday 20th August 2010 as stock may be limited and orders will be filled on a first come first served basis.
